# CSIS USERS GROUP

Communication from the Board

July 2017

## Welcome to the 2017-2018 School Year!

We hope your summer was relaxing and rejuvenating.

### Board Elections are complete

Shellie Scobee with Elizabeth School District has returned.

Meg Pfau with Morgan County School District has joined the board.

### New Officers

The Board had their retreat on July 12<sup>th</sup>. Officers were elected:

Shellie Scobee- President

Carrie Sullivan-Vice President

Misty Flick—Secretary

Tina Madison-Treasurer/Registrar

### Listserv use is up!!

We are extremely pleased with the use of the Listserv by so many users. The questions and answers have helped many people. The Listserv is used for the purpose of assistance and problem-solving among public and private K-12 schools who use and are administrators of Infinite Campus. If communication through the Listserv is other than mentioned above, the communication will need to be sent to the board before sending to the Listserv for approval. The Board has the authority to remove anyone from the Listserv who does not comply.

### In This Issue

- Board Elections
- New Officers
- Listserv use
- User's Conference
- Version 1729 is out

## 2017-2018 Calendar of scheduled meetings has been set.

Fall Users Day  
September 12, 2017  
Ames Facility  
Littleton Public Schools  
7300 S. Clermont Drive  
Centennial, CO 80122

CSIS working together for a better solution

## 2018 CSIS User's Conference

The Board started discussions on the 2018 CSIS User's Conference. The date will be January 29 – 30, 2018 at the DoubleTree Denver. You must book your hotel early! We will update you as we move along in the process. It is never too early to submit your intent to be a presenter at the annual conference. Contact Misty Flick at [mflick@csis.org](mailto:mflick@csis.org) with your interest to be a presenter and/or any questions you may have. Our goal is to have a list of sessions as soon as possible and the schedule available in November. For this timeline to happen we will need your expressed interest as soon as possible.

Mina Parthasarathy [mparthasarathy@csis.org](mailto:mparthasarathy@csis.org) and Kim Moore [kmoore@csis.org](mailto:kmoore@csis.org) will be working on the schedule for all the sessions. If you have a session you would like to see on the schedule or one you would like to facilitate, contact either one at the email listed.

## Version 1729 has been released

Version 1729 will offer a new home page for teachers so they can view current tasks at a glance. The new control center will give teachers a new, convenient way to access assignments to be scored and attendance. The new index will have a hamburger icon to be able to collapse it. These changes have been done to optimize the use on a mobile device so teachers can more easily complete daily tasks on a phone or tablet.

**WARNING:** The table LessonPlanActivity has been removed and this will affect any adhoc or custom packages, scripts or reports that you have currently accessing the information in that table.

Using the Listserv with questions or findings in the new versions, have been invaluable. Thank you for everyone that continues to use the service.
